

Power Distribution Panels

3RU Single and Dual Feed

Ph: +64 (9) 271 6712
Fx: +64(9) 271 6713
info@wavecom.co.nz

General Description:

Power Distribution panels from Wavecom have the benefit of being easily configured to meet your needs. Using a new mounting system and MGE circuit breakers, the panel solves the problem of removing MCB's from DIN rail while benefiting from the use of standard MGE Comb Busbars.

Configurations include.....

- 18 MCB's on a single Feed
- 2 x 9 MCB's on A & B Feed
- 2 x 10 MCB's on A & B Feed
- 2 x 6 MCB's with MCB aux. contact on A & B Feed

Note: MCB's and Blanks are sold separately. Please tell us your requirements and we can preload the PDU.
