

# Spring Type Outdoor Grounding Kit

GKS078-10

## ★Technical Specification

|                                   |   |
|-----------------------------------|---|
| Grounding Wire Length             | 1.0M                                      |
| Cable Section Acreage             | 16mm <sup>2</sup>                         |
| Stretching Resistance             | >500N                                     |
| Contact Material                  | T2 Red Copper + 304(ASTM) Stainless steel |
| Resistance                        | ≤3mΩ                                      |
| Voltage Resistance                | 80kA                                      |
| Power Frequency Withstand Voltage | 35kV                                      |
| Insulation Resistance             | 10GΩ                                      |
| Earth Resistance                  | 2mΩ                                       |
| Operating Temperature             | -40°C~70°C                                |
| Installation temperature          | -40°C~70°C                                |
| Suitable Cable                    | 7/8" flexible RF cable                    |
| Waterproof Material               | Rubber Mastic Tape:63.5mm*3.175mm*600mm   |
|                                   | Electrical Tape:50mm*0.18mm*10m           |
| Protection Rating                 | IP68                                      |
| Durability                        | ≥10 years                                 |
